### Social Media Unites

Social media can be seen as a double-edged sword,  
It can unite or divide.  
A platform for connection yet so often misused.

The use of deception in the media used to harm.  
It's an issue we need to break loose from,  
And it's our time to start.

We can't turn our backs on these tools that shape our world.  
We must learn to use them right,  
To bring unity, and peace to the whole wide world.

Uniting the people misinformed by media will be difficult,  
But it's a challenge we must conquer.  
Using the media as our tool to make our community once again prosper.
